

My Bill from Cincinnati Bell and AT&T has a \$1.78 regulatory recovery fee. This is not a state or federal tax or fee but should be included in cost of phone service instead of as hidden fee from the company. This is one of the companies costs of doing business and should be reflected in fee charged for service so I can compare to other phone companies. Please try to clear up this fraud and make the companies refund these extra fees which were not told to consumers in advance. Thank you
